Ecosystem of Wellness

Our Mission

Emergence & Innovative Mindset

Believe in the creativity and ingenuity of doctors and other healthcare professionals. Recombine and Synthesize diverse ideas and Innovation will Emerge. Enable doctors and healthcare workers to better engage patients through digital health technologies.

Safe Environment

Ideas, creativity and hands on participation are welcomed and encouraged.

Our Vision

- Facilitate Multidisciplinary Innovation Approach (Recombination & Synthesis of ideas)
- Build sustainable ecosystems especially in underserved and remote areas
- KT Knowledge Transfer Programs that Ability to Manage and Communicate with project teams
- Connect via Global Networking Platform (fast answers)
- Provide Access to Global Multi-Vendor, Vetted, Digital Health Marketplace (co-distribute your creations)
- Network with Academia-Entrepreneur-Company-Medical Doctor ConneXion
- Grow with Truly Diverse Global Innovation

Why

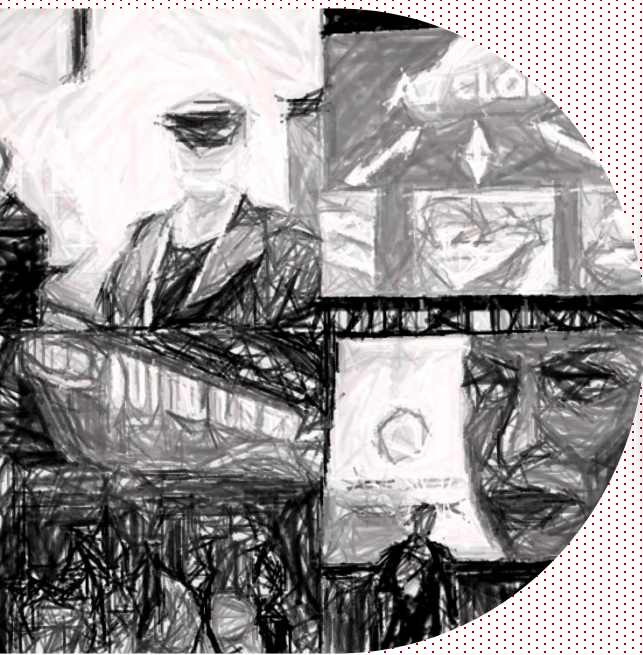

Virtual Healthcare is here,
Digital Operating rooms are
here. We have an
opportunity to democratize
healthcare making it
accessible, affordable, safe,
private and available locally
and globally across borders.

Human Capital

Top Healthcare and Medical
Centers, Talent Pools,
International Leaders, Tech
Centers, Entrepreneurial
Spirit

Areas Of Innovation
Hands on Experience

AI - XR - 3D Printing- Robotic Surgery
Blockchain – Co-Design

Global Network of Innovation

What We Offer

- **AI Healthcare** (access data sets and data/healthcare professor/mentors from Harvard and elsewhere)
- **VR/AR/XR/MR** (global and local companies, XR center with access to equipment, development platform)
- **Blockchain** (develop and integrate into projects)
- **3D Printing/3D bioprinting** (global partners providing equipment, support and advisory services)
- **Robotics** (integrate hardware, software and expert advisor content)
- **Design Thinking/Human Centered Design**/Human-Machine Interaction (HMI) with (Stanford d.school, IDEO) Biodesign Institute and other well renowned institutions)

Structure

Lead & Operate

Develop strategy and structure, lead and manage hub.
Multi-department access and collaboration

Commercialize

IP

DPPC Design – Plan – Pitch – Connect +

IP – Patents – FDA – Clinical Trials

Learning – Events – Research – Conferences – Publications – Certifications

**Digital Skills
& Innovation**

Hack - Sprint - Execute - Support

Workflow Design Curate-Match- Facilitate

Project Management

Manage Projects, Workflows and
Assemble and Manage Project
Teams

- Coordinate and Lead
"Development Sprints" and
"Hackathons"
- Assemble, organize, manage
project teams based
- Facilitate workflow
management on site and on
the GMDVA platform

Global Opportunities

Students

Global internship,
fellowship and exchange

Doctors

Volunteer, Collaboration,
Recognition and Exposure

Residents/Fellows

Joint presentations at

Please help us build.

Decision Making Platform

We will provide university access to all doctors, residents, fellows, professors working with the Digital Skills & Innovation. Digitization project will make all real-life experiences and real-world applications from doctor innovator co-facilitated programs available to medical students at 2900 global medical schools via an easily accessible mobile platform

Low-cost Access

Core technologies enables project teams to build, share, communicate and earn. We need your help. Together we can have a positive social impact on patient care access, delivery and outcomes.

Platform Ecosystem Globally Accessible

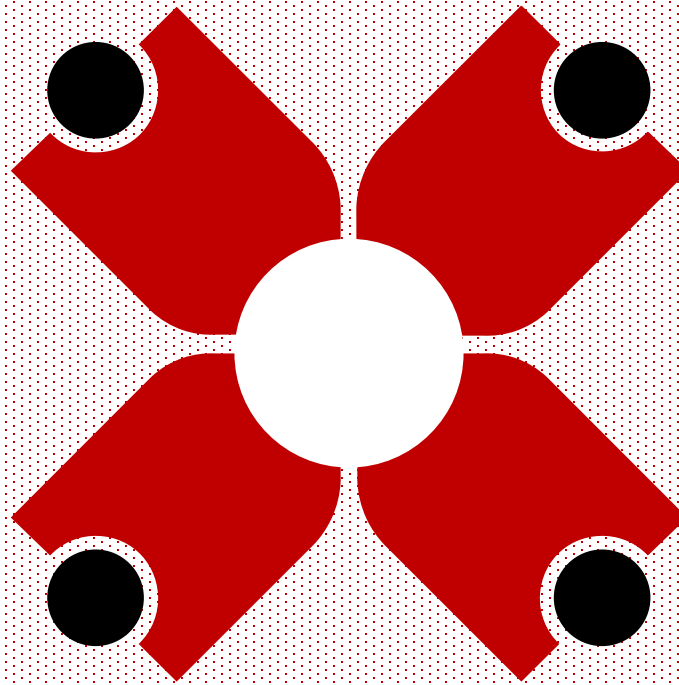

Instantly become part of something much bigger than yourself, start contributing and see rapid results! We need your help to further develop these platforms. You can contribute to a tremendous, positive social impact through individual or corporate donations.

<https://gmdva.org/donate/>

Recombining and Synthesizing New Ideas

Provides the foundation and talent for innovation. Exceeds KPI in many areas of innovation at once.

Provides the central core technology partners, content and connections to accelerate growth.

Provides the structure, project management, workflow design and support to succeed.

Provides the international platform to speak, publish and gain exposure.

Together, we can make healthcare universal, accessible, and affordable

Thank You Everyone
alliance@gmdva.org

Courage

Please take the first step and join this global movement...

When we might not presently know every detail of the outcome....
